Truth will Some day come to the Surface. | H. C. LLOLD. The Northern people bave put the knife to their own throats. They have lost, for-ever lost, the great Southern artery of wealth by this fanatical Abolition war. Few per-haps among us now believe it. Time will

ere long reader her decision.

We don't feel the force now of what we above said, but the day is not far ahead when we shall.

The North has forever lost the South -The Abolitionists have struck a heavy blow at their own existance. They have by the war made the Southern people a self-sustaining nation. They have made them rely upon Southern industry, and ingenuity for their existence. They have built up Sonthern manufactory, and cripled that of the North. They have forced the Southern people to become an agricultural population and now depend upon their own fields for bread, and not on those of the North.

They have made them a commercial people, and will never again employ Northern ship owners to bring their Merchadise. From present appearance they will soon cope with us on the broad waters of the Ocean.

Gentlemen of the Abolition brother-hood, your market in the South, ara at an end .-When the war is over; they will have all the elements of a great people. It will make no difference to them whether they are in the Union, or out of it, they will have the means in their owg hands to cut loose from Northern markets. You have made them fall bock upon their necessities and re- 20 Hhds. Choice new N. O. SUGAR; sources, and that has made them a great 10 " Prime " " and self sustaining people.-Hamilton (O) 50 Bbls. Lovering's Philadelphia REFINED Telegraph.

The population of the city of Lexington, Kentucky, according to the Assessor's returns just made, is 9,383, showing an increase MOLASSES-Old and New Crop; of 435 during the past year. The total valnation of real and personal property in the city is \$3,085,680.

A FACT NOT GENERALLY KNOWN .- The largest building upon the American continent is the cathedral in the city of Mexico. 500 feet in length, 400 in breath, and will comfortably seat 30,000 persons. One picture alone, representing Virgin Mary, is ornamented with such a profusion of costly jewels that it reached the enormous estimate of \$24,000,000, while its various appurtenances exhibit the most extravagant degree of magnificence throughout.

FACTS TO BE CONSIDERED .- In the year 1800 the West Indies exported 17 000,000 pounds of cotton. The United States expotted less than 18,000,000 pounds. Thirty-three years later slavery was abolished in the British West India Islands. Six years after emancipation the West Indies exportonly 866,156 pounds of cotton, and the United States 743,941,061 pounds. In 17-90 the value of the exports of Havti was \$28 000,000. In 1800, or sixty years after emancipation, the exports from Hayti amounted to only about \$23,000,000.

A Case of Modesty .- An exchange paper gravely informs us that a young man who was recently bathing in the Missouri River, seeing a number of ladies approach, drowned himself from motives of delicacy.

Don'T CHEAT THE PRINTER -A grain of carmine will tinge a gallon of water, so that at all prices. in every drop the color will be perceptable and a grain of musk will scent a room for twenty years Just so, if a man cheat the printer, the stain will be forever visible on the minutest atoms of his minute soul, and will leave a scent of rascality about an individual strong enough to make an honest man turn up his nose in disgust, and him out of his presence, if he can't get rid of him in any other way .- Printer's Cabinet.

OLD ABE'S LAST JOKE .- We do not know what joke Old Abe made when he heard the news of the surrender of Plymouth. In regard to the Fort Pillow affair he made a Bunsby speech, but no joke. His last joke of which we have any knowledge, occurred when Secretary Chase was starting on his trip to New York. Old Abe is like Cromwell, without his military genius, and is very fond of playing practical jokes upon his associates. It is said after Cromwell French and English China, Glass, had signed the warrant for the execution of King Charles he turned round to one of his colleagues and smeared his face with the in great variety, as Vases, Toilet Sets in China ink. This he thought capital fun. Old Abe's jokes are of about the same quality. When Chase called upon him to say goodby the Secretary of the Treasury asked for some information about the probable end of the war, saying that it would help him greatly in getting more money in Wall street. "Do you want more money?" asked Old Abe, and then quickly added, "What! has the printing machine gin out?" This joke is fully equal to Cromwell's .- (New York Herald.

Beauty thou art twice blessed; thou blesseth the gazer and the possessor; often at once the effect and cause of goodness! A sweet disposition, a lovely soul, the lips, the brow, and become the cause of beauty. On the other hand, they who have a gift that commands love, a that opens all hearts are ordinarily inclined to look with happy eyes upon the world; to be cherful and serene; to hope and confide. There is more wisdom than the vulgar dream of, in our deep admiration of a fair face.

THE MULTIPLICATION TABLE, -Bill S .-is a good accountant, but, like all men will sometimes make mistakes, and in one of his bills figured up that "8 times 8 are 88."-The debtor was not slow in discovering the mistake, and demanded an explanation .-Bill examined the account and saw that he was "down," but did not like to admit it; so, putting on a bold face, he said:

'That is all right." "How so?" was the inquiry. "It's all owing to the inflation of the cur-rency," said Bill, "the multiplication table, like everything else, has gone up."

THE HEART.-The little I have seen of the world, and known of the history of mankind, teaches me to look upon the errors of others in sorrow, not in anger. When I take the bistory of our poor heart that has sinned and suffered, and represent to myself the struggles and temptations it has passed through; the brief pulsations of joy; of the feverish inquietude of hope and fear; the pressure of want; the desertion of friends, the scorp of the world that has little charity; the desolation of the soul's sanctuary, and threatening voices within, health gone, happiness gone, I would fain leave the erring soul of my fellow man with him from whose hands it came .- Longfe'low.

'I curse the hour that we were married, exclaimed a nusband to his better ball, to which she mildly replied, 'Don't my dear, for that was the only happy hour we have

WM. H. RICHARDSO WHOLESALE DEALERS IN

GROCERIES. WINES, LIQUORS, TEAS & TOBACCO, MERCHANTS,

DR. JOHN BULL'S COMPOUND CEDRON BITTERS!

The Latest and Most Important Discovery of the Nineteeath Century.

NO MAN'S NAME IS MORE INTIMATELY connected with the history of the Materia Medica of the United States, or more favorably known as a single in medical discovery, than that of JOHN BULL, of Louisville, Ky. imitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drug. His compound Pectoral of Wild Cherry has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their intro-duction, attained a reputation as widespread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the Bitters now offered to the public. That honor belongs to the pative inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it, the Indian bids degance to the most deadly majoria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to care, no mat-

tet what the disease may be. While Dr. Bull is not prepared to indorse this extravagant protension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long enjoyed in Central America and the West

DYSPEPSIA

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the eleventh edition of the U. S. Dis-

pensatory, pages 1687 and 1888. A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other improved ton.cs, the whole p eserved

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for l'imself the virtues of a new medicine. Cive the

Cedron Bitters

one trial, and you will never use any others.

It is not necessary to publish a long list of discases for which the Cedron Bitters are a specific, In all discuses of the STOMACH, BOWELS,

In all affections of the BRAIN depending up-on derangement of the Stornach or Bowels; In GOUT, RHEUMATISM & NEURALGIA; And in FEVER AND AGUE: It is destined to supersede all other remedies. It [not only cures all these diseases but it pre-

A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the

most unhealthy climate and screen the person taking it against disease under the most trying Sold by Druggists and Greeers, generally.

Convex Reflector Lantern!

FOR RUBNING COAL OIL WITHOUT A CHIMNEY. T Possesses many qualities which highly commend it, and is pronounced by all who have tested its merits altogether THE MOST DESIRABLE

ANTERN they have met with. 1. It gives a pure white light-without Chimney. 2. It stands Quick Morions in any direction. 3. The flame is regulated from the outside. 4. It is neat and compact in form and size. 5. It is free from solder in the upper parts, and is

otherwise very substantial in its structure. 6. It has the glass sides so arranged that break-age is less likely to occur than in other Lanterns, and in the event of breakage can be easily replaced.
7. It has CUNVEX REFLECTORS which in-

crease greatly the force of the flame; serving at same time the purpose of shades to the eyes, which is very desirable, It is sold at a LOWER PRICE, with all these advantages, than any Lantern in the market

which admits of the flame being regulated from the outside. SEATON & BRODRICK, For sale by Cor. 2nd & Court Sts.

Gun-Powder Teas, OF SUPERIOR QUALITY, just received and for sale at our Drug Store, Corner 2nd & Court Streets. SEATON & BRODRICK. Maysville, Ky., 8rd March, 1864.
